IMAR  Singular Metal Solutions

IMAR COLOUR SELECTION

Imar offers a wide range of standard and special colour finishes for improved corrosion resistance. Powder-coated finishes in all RAL colours, anodized colours for external architectural applications and special metallic, iridescent and textured finishes to simulate different materials and patinas, like Cor-Ten steel and copper. This brochure just includes a selection of our colours. If your colour is not shown, please contact our professionals.

Imar ofrece una amplia gama de colores estándar y especiales que mejoran la resistencia a la corrosión. Acabados en polvo en cualquier color RAL, anodizados en color para aplicaciones arquitectónicas externas y acabados especiales metálicos, tornasolados y texturizados que imitan diferentes materiales y patinas como el acero Cor-Ten o el cobre. En este folleto le presentamos una selección; si su color no se muestra aquí, por favor póngase en contacto con nuestros profesionales.
